Benefits of Switching to an eMAR

- **Less errors** and **greater focus** on tracking **health goals**
- **Less time** on **paperwork** and **more time** on **client engagement**
- **Audit Trails** encourage **compliance** and increase **staff accountability**
- **Less hassle** tracking down old **paper files** - access **real time** eMAR anywhere
- No more **outdated paper** MARs when medication changes mid-month, staff are always looking at **current information!**
- Fewer places to track **scheduled events** - track medication, vital signs, treatments all in one location
- **EASY REPORTING** and **TREND IDENTIFICATION**

Integrating MedSupport with AWARDS

START UP:

- Agency will decide which client should be synced with MedSupport
- Those clients' medications will be synced from AWARDS to MedSupport
- Demographic information such as; Name, Gender, Address, DOB will be stored in AWARDS and synced to MedSupport
- Medical Information, such as Allergies and Diagnosis, will be stored in AWARDS and synced to MedSupport
- Agency will decide which staff members should have access to MedSupport
- A staff member's program chart access permission will follow them into MedSupport
- Within MedSupport, an agency can set an employee's access level

Integrating MedSupport with AWARDS

DATA EXCHANGE:

- Clients can be added to MedSupport at time of admission or anytime thereafter. Their demographic information will be a read-only record in MedSupport
- Medical Information, such as Allergies and Diagnosis, will be stored in AWARDS and synced to MedSupport as a read-only record
- New medication information will be sent from the pharmacy to MedSupport and, once approved, back into AWARDS as a read-only record
- Vital tracking information, such as Weight, Blood Pressure, and Blood Glucose, will be sent to AWARDS as a read-only record
- Employees can be added to MedSupport at time of hire or anytime thereafter
